Du Verre Hardware, a leader in quality and original design for contemporary cabinet hardware, is very excited to announce their continued sponsorship of the 2013 BlogTour London (#BlogTourLDN).

This year's BlogTour London will bring a creative group of lifestyle and interior design bloggers to the London Design Festival taking place September 14-22. The bloggers will have the opportunity to explore over 300 premium brands exhibiting, attend design seminars, presentations and show tours.

"We really want to extend our exposure to the design community overseas. This event will get us in touch with designers and architects at the forefront of the design world." stated Gina Lubin, one of the founding partners of Du Verre.

Through their collaboration with an outstanding roster of award-winning designers and artists, Du Verre has raised the bar on innovative hardware design and the sustainable use of materials. Thanks to progressive manufacturing methods, each piece of die cast hardware is crafted from 100% eco-friendly recycled aluminum that is fully compatible with LEED objectives.

Du Verre Hardware features the work of outstanding design professionals including Clodagh, William Harvey, Goodman-Charlton, Jeff Goodman Studios, Scot Laughton, Christopher Smith, Heinz Pflieger and Gina Lubin.

BlogTour London is organized by Modenus.com. Modenus is an online networking platform and resource catalog for the interior design community. For more information visit www.modenus.com.
