ARROYO is the work of the amazing designer and thought leader William Harvey. Since 1989 Harvey's objects have permeated the culture and influenced the interior design world. First known for introducing completely beautiful, handcrafted and sophisticated objects at New York's prestigious Accent on Design show, his work was quickly taken up by in-the-know consumers, design professionals and the press. His original ideas influenced a generation of young designers and not too surprisingly inspired countless imitators!

ARROYO is an elegant new series of cabinet knobs and pulls for Du Verre Hardware. Its simple geometry implies luxury and ease. The slim channels that define ARROYO'S silhouette are reminiscent of the incredible man made water channels that you find all over the world in architecture and in the most beautiful gardens. Arroyo in nature is a creek or natural ravine that channels water during the rainy season. Both scenes conjure up poetry for the senses.

ARROYO is available in four sizes and three finishes; Satin Nickel, Oil Rubbed Bronze **and for the first time White!**

Du Verre Hardware is a leader in quality and original design for contemporary cabinet hardware. With an outstanding roster of award winning designers, Du Verre Hardware collections are an indispensable resource for design loving consumers and professionals alike. Du Verre Hardware can be found in some of the most beautiful interiors being created today.

Du Verre Hardware is environmentally friendly. The cabinet hardware is made from recycled aluminum and is compatible with LEED objectives. All items are in stock for quick shipping. Du Verre ships around the world.
