Add some drama to your kitchen or bath cabinets with Du Verre Hardware's new Arroyo knobs and pulls in a **White finish**. Sophisticated with a modern edge, the Arroyo in White coordinates with the recent European white plumbing fixture trend.

Angular and symmetric, the Arroyo Collection's simple geometry implies luxury and ease. The slim channels that define Arroyo's silhouette are reminiscent of the man made water channels that you find all over the world in architecture and in the most beautiful gardens. And the option of Arroyo in a pure white finish makes a clean style statement.

Designed by William Harvey, Arroyo is created from 100% recycled aluminum. Arroyo is available as a knob, 4-3/8" Pull, 8-1/2" Pull or 13-1/4" Pull. In addition to White, the Arroyo Collection is also available in Satin Nickel and Oil Rubbed Bronze.

Du Verre manufactures its die cast hardware using post-consumer recycled aluminum. Using post-consumer recycled aluminum reduces the generation of air and water pollution by 95% and requires only 5% of the energy that would otherwise be used in production of new metals.

Du Verre Hardware is a leader in quality and original design for contemporary cabinet hardware. With an outstanding roster of award winning designers, Du Verre Hardware collections are an indispensable resource for design loving consumers and professionals alike. Du Verre Hardware can be found in some of the most beautiful interiors being created today.

Du Verre Hardware is environmentally friendly. The cabinet hardware is made from recycled aluminum and is compatible with LEED objectives. All items are in stock for quick shipping. Du Verre ships around the world.

For more information about ARROYO or any of Du Verre Hardware's other collections please contact us at 1-888-388-3773 or www.duverre.com.
